Product Overview

- Ear Cap
- Indicator
- Volume Up/Previous
- Volume Down/Next
- Pairing/Answer,Power/Play
- Micro USB charge port

Charging The Battery

The SB60 is operated with a rechargeable battery. Charge the battery completely before its first use.
1. Connect the USB cable to a general USB power supplier.
2. Connect the charger to the correct outlet.
3. When the charger is connected to the headset, the red indicator light will turn on. A full charge may take up to 1hour.
4. When the battery is fully charged, the red indicator light will turn blue. Disconnect the charger from the headset and the outlet. The headset is ready to use

NOTE:
For first time use, please charge the headset fully.
- The fully charged battery has power for up to 5 hours of talk-time and 4.5 hours music playing time, and up to 300 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth® devices, usage settings, usage styles, and environments.
When the battery power is low, the headset will remind you by voice prompt "Battery low" every 20 seconds, and the red indicator light starts to flash.
- For using the SB60 with an iPhone, an additional battery meter will be activated and the remaining battery capacity will display on your phone.

Pairing Your Device

Before you use your headset the first time, you must pair the unit with a Bluetooth® enabled mobile device. Pairing is a one-time process and required only for the first connection with the Mobile phone. The SB60 can be connected to two mobile devices simultaneously.
1. Keep the SB60 within 1 meter range of a Bluetooth enabled device.
2. Press and hold the Power/Play button for about 5 seconds, the indicator light will flashe red and blue intermittently -
The device is now in pairing mode.
3. Find the Bluetooth setting of your Mobile phone and start the search for Bluetooth devices.
4. From the list of devices found, select the "ADURO SB60".
5. If required, enter the PIN code "0000" and confirm the entry. Once the pairing process was successful, the SB60 will connect to your device automatically then switch to standby mode, the indicator will flash blue every 5 seconds
6. If you want to pair two Bluetooth devices, please
1.First, pair headset with A bluetooth device
2.Switch off the headset, and switch on again
3.Pair and connect to B bluetooth device
4.Keep B bluetooth device connected, and pair A bluetooth again, headset will connect with two device automatically.

NOTE:
- If pairing is not completed within 2 minutes, the headset will turn off. If this happens, please repeat the pairing steps.
- The SB60 supports Multi-connection that allows for the simultaneous use of the SB60 with two mobile phones. After pairing successfully with 2 mobile phones, switch off the headset and switch on again, the headset will connect to both 2 mobile phones automatically. Otherwise, you can connect the headset on the cellphone manually.

Turning your Device On & Off

Turning it on -
Hold the Power/Play for 3 seconds to turn on your headset. If your headset has completed the pairing process successfully, when the headset is turned on, it will connect to the phone you last connected automatically. Please ensure your device's Bluetooth function is active.

Turning it off-
Hold the power button for 3 seconds to turn off the headset. the Red indicator will flash red.

NOTE:
- To conserve power, if the headset is not connected to a device for approximately 10 minutes, the headset will turn off automatically.
