- 110mAh Rechargeable Lithium battery included
- Operating distance: > 10m
- Stand-By time: Approx.100days
- Working time: Approx. 28 hours
- Keyboard size: 294*85*7mm
- Micro USB charging cable included

Operation

Before using your Bluetooth keyboard, please fully charge the unit and follow below instructions to pair your devices on initial use. Once you achieve this prior successful connection, your paired devices will make connections automatically every time you use them afterward.

The Bluetooth Keyboard must be paired with a Bluetooth enabled device. To that end please follow the below steps.

Step 1: On the keyboard, slide the power button to on. The blue status light will illuminate for 4 seconds and then turn off to save power. Note: Your keyboard is still on.

Step 2: Press the "CONNECT" button, the Bluetooth indicator light will be blinking blue.

Step 3: From the Bluetooth menu of your device, search for new devices and select "CL-KD-100" to pair with your device.

Step 4: After you select it, the device will display a code.

Step 5: Type the code on the keyboard and press enter, keyboard will now be paired to the device.

NOTE:

After successful connection with a corresponding device, press Fn + Q (Android), W (Windows) or E (iOS) keys together to shift between Android, Windows or iOS systems. Otherwise some keyboard's function keys will only be partial valid.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
